

### **DAN STRUSKI**

Hi I'm Dan, I grew up in the Athabasca area with time spent between our family properties at Island Lake and the west side of Baptiste Lake. After moving around to establish my professional career, my wife and I purchased property at Sunset Beach in 2018 and moved out to the lake as full-time residents in 2021 to start a family and enjoy the adventures that Lake Life has to offer. I have been a big part of creating and maintaining the winter community ice trail, and can be seen on a regular basis, swimming, boating, and enjoying long walks with our daughter Chloe and dog Clark.

As a Power Engineer for the past 15 years, I manage complex facility operations and team development; and have learned to look for solutions in a practical and reasonable manner. I am running for council in hopes of continuing to maintain our quiet and peaceful atmosphere at the lake, while optimizing services and communication to get more residents involved with our Village and the initiatives we are undertaking. I hope to also continue further long-term development planning of Centennial Park through grants and external funding options to include spaces for people to relax and socialize, as well as an eventual small playground for our residents, children, and grandchildren to enjoy. My family intends to be long-term pillars of the community, and I am excited to take on stewardship of our wonderful village to keep it friendly and enjoyable for years to come.

Vote Dan, he's the man!
